## MHS SLIMLINE

We solve your space problems! MHS leaves you more space for goods and presentation. Thanks to the new, unique and patented MHS cutting principle in the MHS Slimline, the bread cutting machine has a width of just 58.5 cm, an infeed length of 38 cm and a low height of just 105 cm! And, the crumbs stay in the machine.

- Bread measurement without light barriers
- Extremely easy to use due to the touchscreen
- Service menu and information on the touch screen
- Packaging of the bread in the machine
- Automatic slice holders
- Automatic gripper
- Oil-free cutting, even with warm bread
- Highest safety and hygiene standards
- Space-saving
- Optional version available with buttons instead of touch operation

## EFFICIENCY DUE TO:

- Slim, just 58.5 cm wide → more shelf space
- Low maintenance costs as particularly maintenance-friendly
- Easy cleaning
- Extremely durable blade thanks to special coating and original MHS sharpening
- Drive with frequency converter protects the mechanical parts (soft start-up, soft stop)

## MAXIMUM HYGIENE DUE TO:

- Stainless steel housing
- Functional parts easily accessible
- Hermetic encapsulation of the drive and electronics in the cutting chamber
- Oil-free cutting
- Blade and gripper cleaning position
