IN FOCUS

# ICC Global Vaccine Campaign

**Global GDP losses could total more than \$9 trillion in 2021** if the supply of vaccines in emerging economies remains severely constrained.

**In a more optimistic scenario**, where developing economies are slowly able to vaccinate half of their populations by the end of the year, **global GDP losses could still be as high as \$4 trillion.**

## KEY FINDINGS

**Almost half of these costs will be incurred by advanced economies** – even if they succeed in vaccinating most of their citizens by this summer.

**Funding multilateral efforts** to make vaccines available to everyone, everywhere is the best possible investment advanced economies can make to **enable a rapid economic recovery.**

2020 → 2022

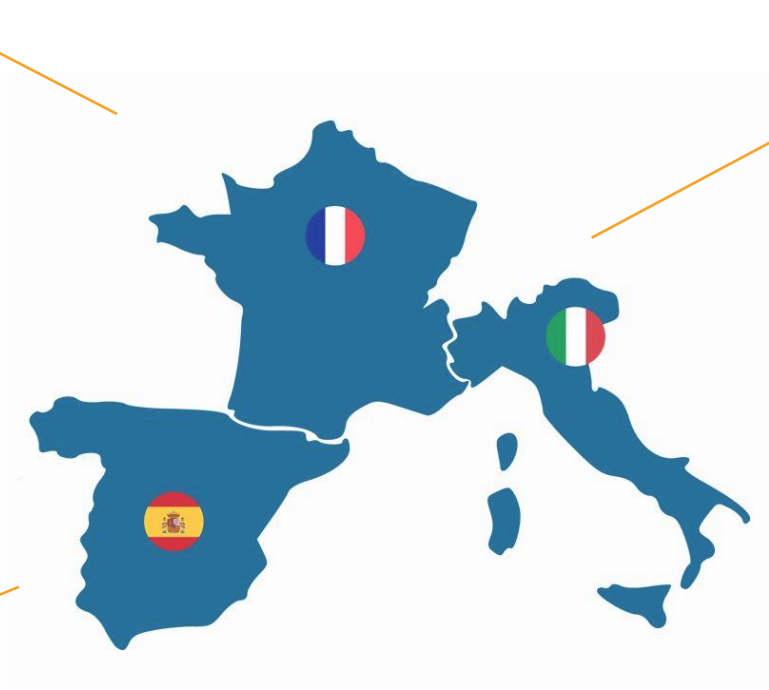

# Restoring Global Mobility

## France

- ICC AOKpass has now integrated with the network of labs of **Biogroup**, which owns approximately **700** labs in France.
- Passengers in the **Etihad** route from **Paris to Abu Dhabi** will now have the option to use AOKpass.
- Additional routes agreed with **Air France** and partners (**Air Caraïbe, French Bee**), pending final approval

## Spain

- The city of Girona will utilise ICC AOKpass in a [pilot scheme](#) to digitise COVID-19 antigen test results and safely reopen its economy in the age of the pandemic

## Italy

- The scheme will run from **22 February until the end of March 2021** and will allow users to present a digitally authenticated COVID-19 negative test result to gain entry into public exhibitions, business events, restaurants, and football matches

- **Aeroporti di Roma** and **Alitalia** began using ICC AOKpass on **5 January 2021**, in a pilot to digitise COVID-19 rapid antigen test results carried out at the **Leonardo da Vinci-Rome Fiumicino airport**.
- The partnership concerns the Alitalia route from **Rome to New York JFK**. Passengers who wish to do so can do an antigen test at the airport and have it digitalized through the AOKpass app.

# Restoring Global Mobility

## Sanofi pilot in the Philippines

**In progress:** Sanofi launched a pilot by creating a digitally verified and tamper-proof influenza vaccination record for a group of frontline healthcare providers at St. Luke's Medical Center in Manila.

## Energy Drilling Management pilot between Singapore and Thailand

In July 2020, Energy Drilling Management in partnership with International SOS, [tested a 10-strong crew](#) needing to travel aboard an oil rig vessel to conduct drilling services for a client in Thailand.

## Singapore Immigration authority pilot

As a result of the [successful pilot](#), all travellers from Malaysia and Indonesia are now able to use the ICC AOKpass to digitally authenticate their COVID-19 test results. Dedicated immigration lanes have been established at Changi Airport for passengers using ICC AOKpass.

## US West Coast

In collaboration with ACI, ICC is in discussion with several US west coast-based airports to implement AOKpass pilots.

### Potential routes:
