

MACHUPICCHU
CARBONO NEUTRO

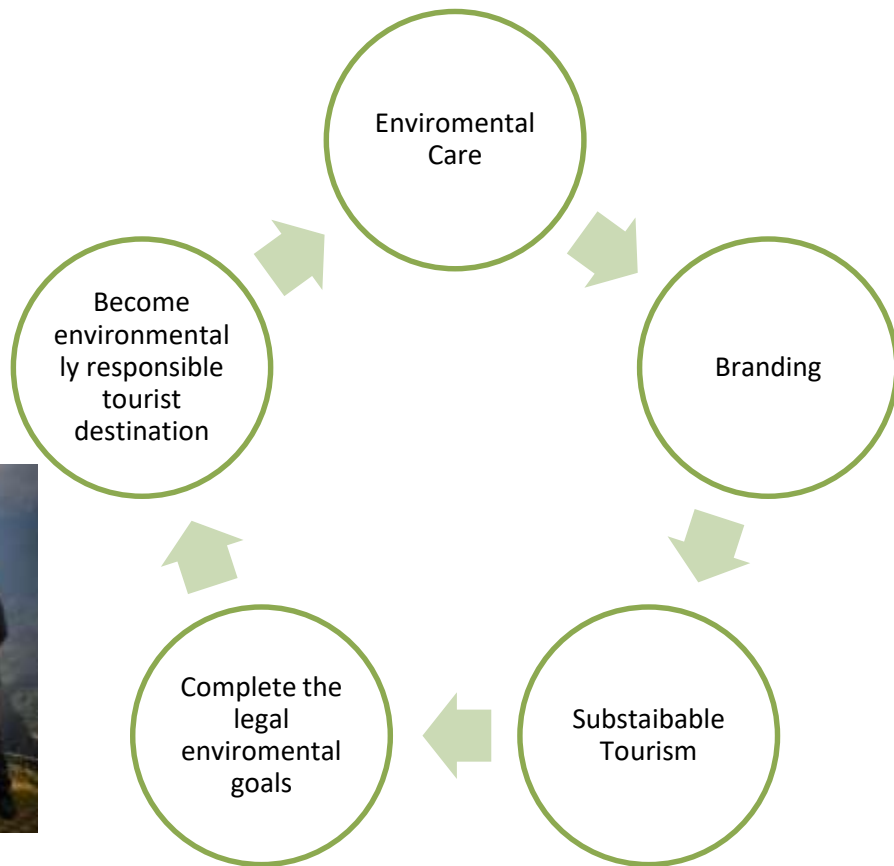

Machupicchu a Sustainable District

A GREENER DISTRICT

MUNICIPALIDAD DISTRITAL
MACHUPICCHU
Somos Todos

OUR GOALS

The District Municipality of Machu Picchu, works with the purpose of integrating climate action into its economic recovery strategy, reaching the Carbon Neutral Certificate. Through this effort we have as a result:

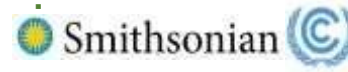

- International recognition as the World's First Carbon Neutral Wonder.
- Mobilization of international cooperation resources and green funds to reactivation.
- Scale the experience in handling organic waste, plastics and oils.
- Serve as a reference for the international positioning of Peru.

CO2 EMISSIONS AVOIDED

The organic waste recovery plant avoided the generation of 8.5 tCO₂eq

The glass spraying plant will contribute to the reduction of tCO₂eq

The compactor plant has contributed, with the reduction of approx. 736.3 tCO₂eq

The biodiesel plant generated a reduction of 17.9 tCO₂eq in 2019
