vallourec

"The integration of Aprovall with Ivalua allows us to sustainably improve the reliability of our supplier management. Data is centralized, up to date, and instantly accessible, significantly streamlining the work of our procurement teams."

Corinne Petriaux, *Business Application Manager*, **Vallourec**

Our solutions

Human Rights

Assess your suppliers' human rights practices and ensure they operate locally and globally in line with your ethical standards and compliance expectations.

Legal Compliance

Strengthen legal oversight by automating document updates and ensuring full alignment with local and international regulatory requirements.

Environment

Improve visibility into the environmental initiatives of your suppliers by integrating ESG workflows that support internal reporting and collaboration.

Finance

Evaluate the global financial health of your suppliers, detect potential banking fraud, and anticipate risks that could disrupt your business operations.

Ethics & Compliance

Consolidate supplier information to generate accurate integrity scores, identify ethical risks, and take informed actions to strengthen both supplier assessments and your organization's reputation.

Cybersecurity

Collect and analyze cyber-risk documents, automate your internal actions, and rapidly assess your suppliers using a global data repository.
