

# Empowering People, Changing Lives

The global leader in  
scientifically validated,  
digital mental health care.

Our digital therapeutics (DTx) combine **proven therapeutic principles** with **state-of-the-art technology** and **patient-centric design**.

HelloBetter was **founded in 2015** as the university spin-off GET.ON Institute.

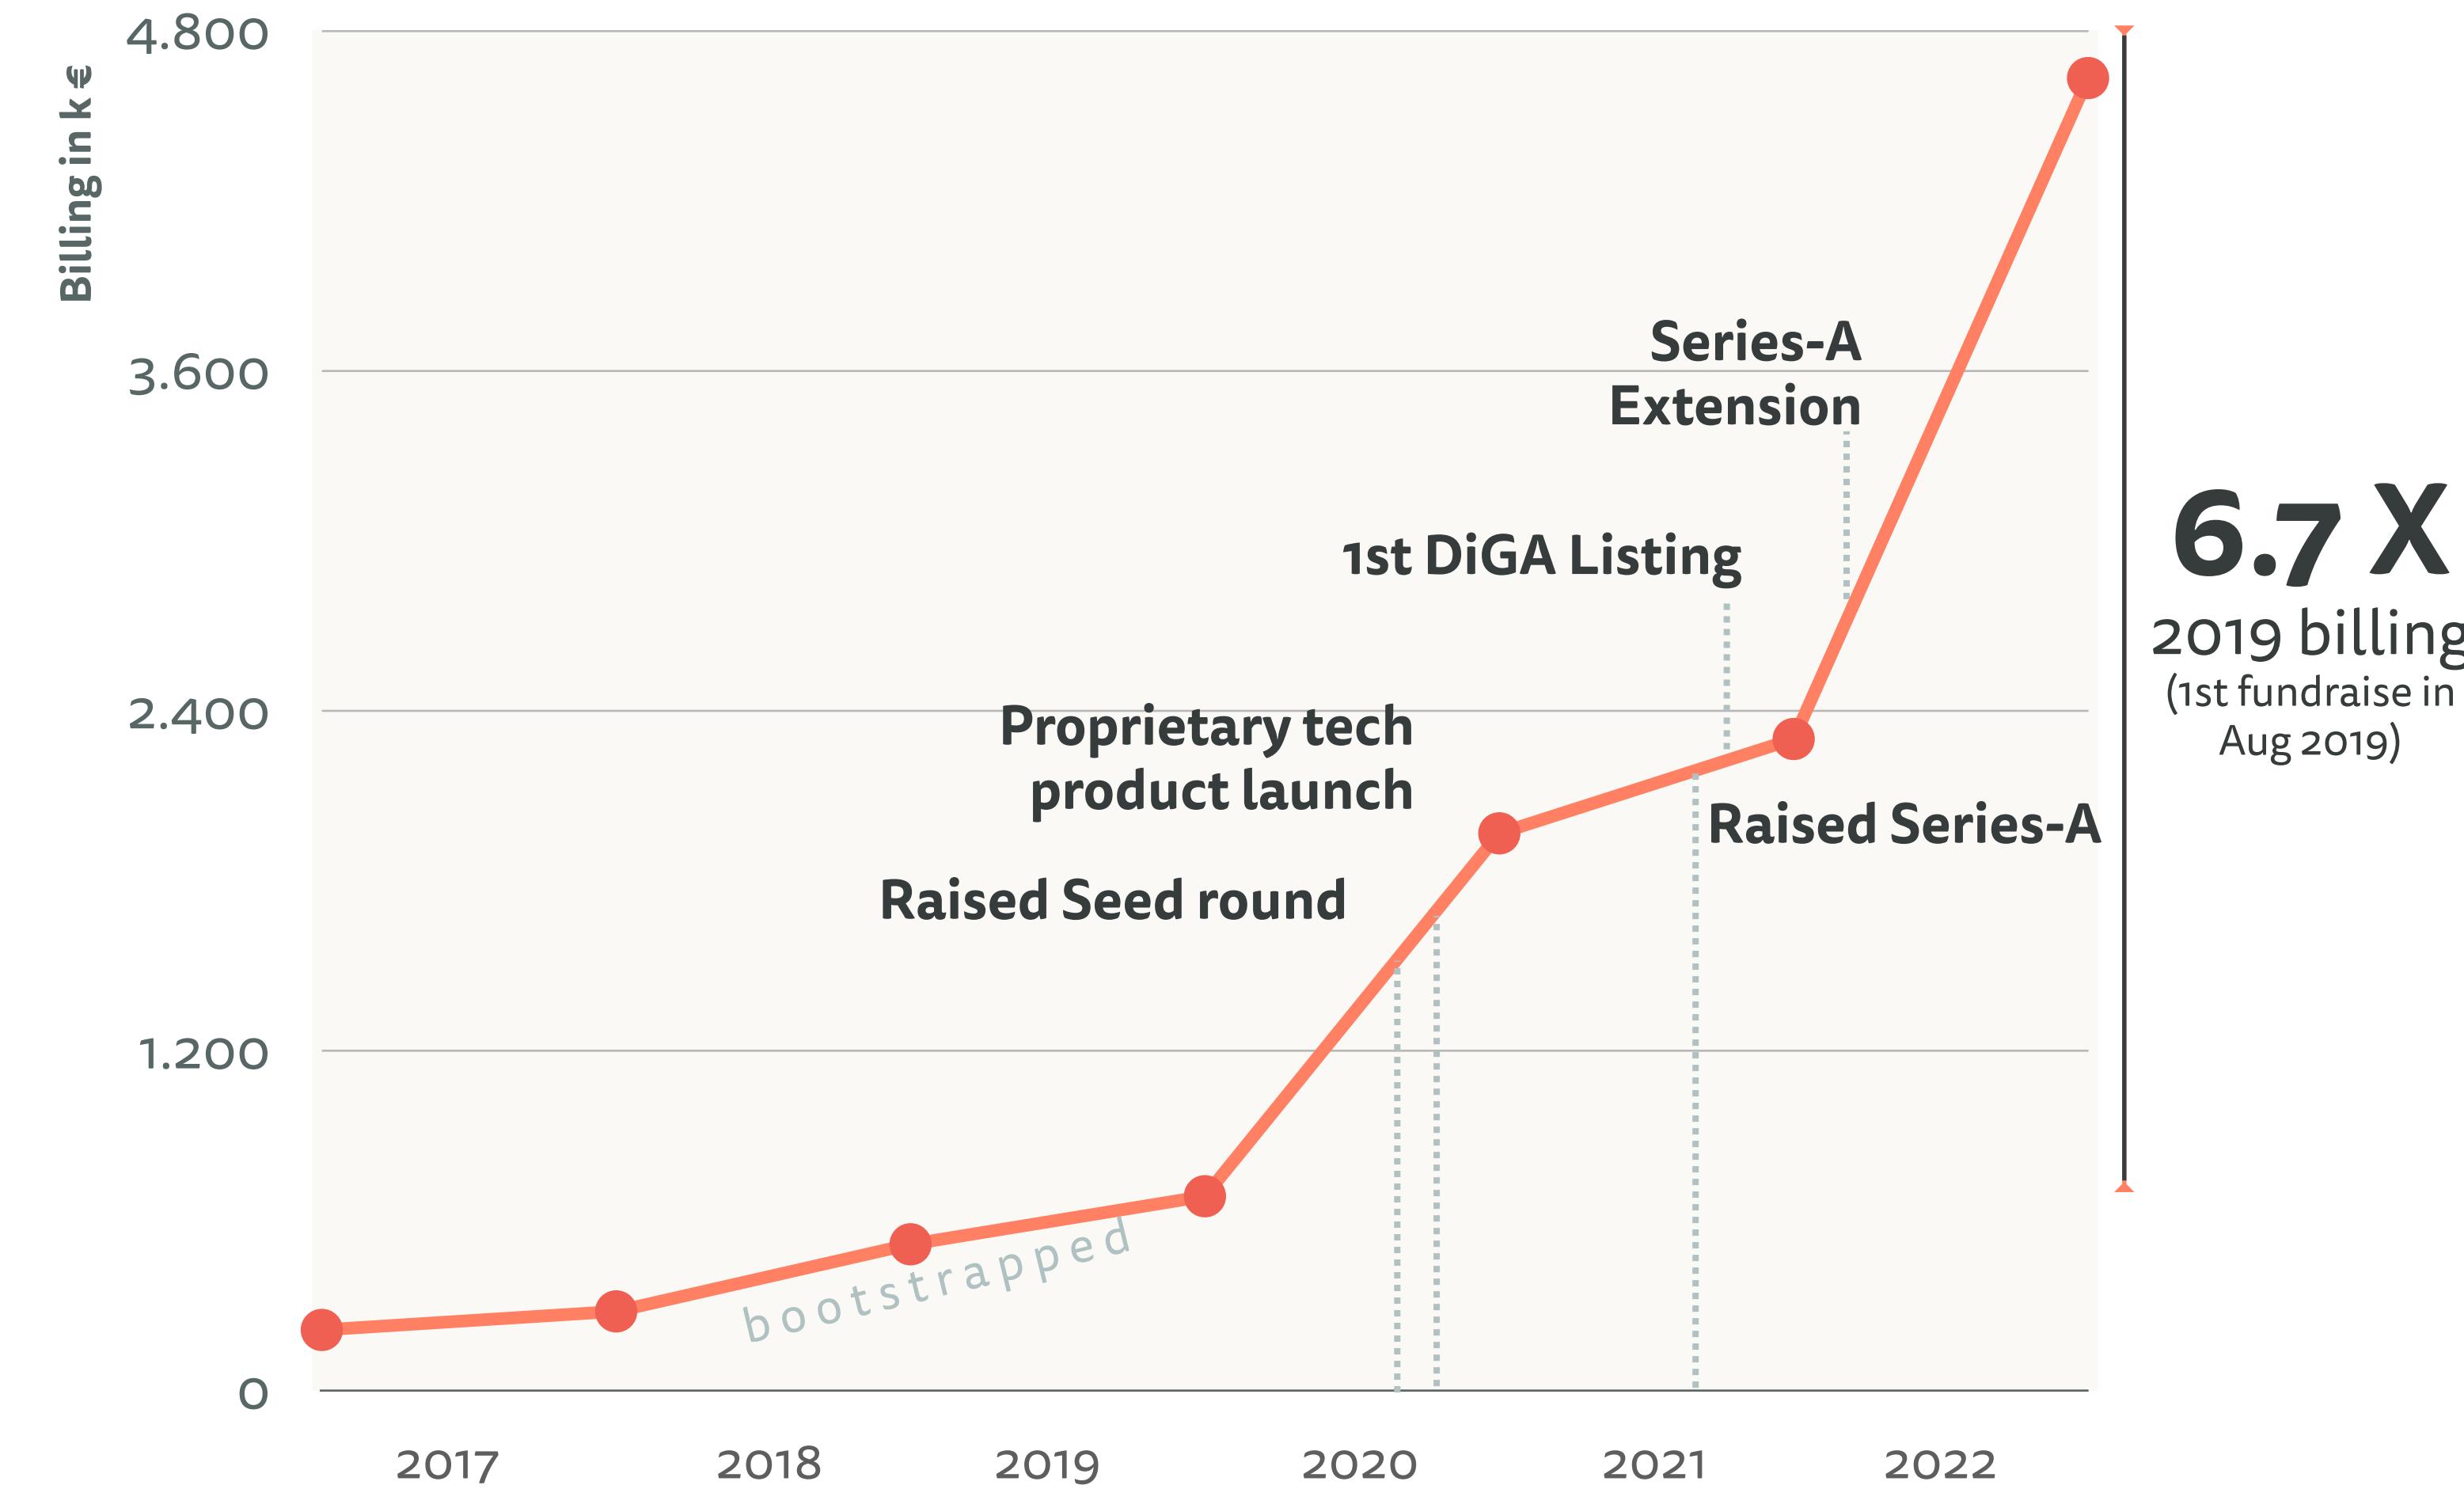

HelloBetter offers **psychological therapy** programs in the field of mental health for **8 different treatment areas**.

We have already helped **over 40,000 people** improve their well-being and mental health.

The effectiveness of our programs has been demonstrated in **over 30 Randomized Controlled Trials**.

**After raising funding, we more than sextupled billing from universal reimbursement, health insurance contracts and corporate clients.**

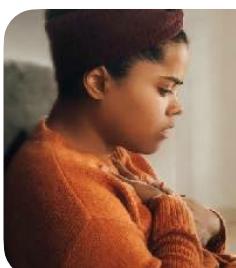

# Our versatile technology platform enables us to offer the broadest and most effective DTx portfolio on the market.
