No artificial
additives

Quality in Japan is not a promise, it is a philosophy.

INABA is a Japanese family-owned company with deep roots in food craftsmanship dating back to 1805.

Today, we aim to deliver pet food of the highest quality standards, using human-grade ingredients. At the heart of our products you will always find protein sourced with care: whether it is farm-raised chicken from closely supervised farms, or deep-sea tuna harvested in a sustainable, dolphin safe certified way.

With a variety of products, textures and flavours, INABA helps pet parents create meaningful bonding moments with their pets.
