BLEACHING IN 2024

An underwater scene showing two divers swimming in clear blue water. Bubbles are visible rising from the divers. The scene is dimly lit, emphasizing the underwater environment.

KNOWLEDGE AND RESEARCH

A classroom set up on a sandy beach. Several children are seated at wooden desks, facing a teacher who is standing at the front. The ocean and a palm tree are visible in the background under a clear sky.

FUTUR GENERATION RAISING AWARENESS

A large crowd of people, mostly women, standing on a beach. Many are holding small flags. In the background, there are modern buildings and a clear blue sky. The crowd appears to be participating in a public event or protest.

SCIENTIFICAL EXPLORATION

GENETIC

A close-up, artistic rendering of a DNA double helix structure. The helix is composed of dark blue and grey spheres connected by thin, glowing lines, set against a dark blue background with soft, out-of-focus light spots.

WATER
ANALYSE

A female scientist with dark hair, wearing a white lab coat, safety goggles, and white gloves, is carefully pouring liquid from a small glass vial into a larger beaker. The scene is set in a laboratory with blue lighting and various glassware visible in the background.

WELCOME
SCIENTISTS

Three people, two women and one man, are sitting on the deck of a boat. They are all smiling and wearing sunglasses. The woman on the left is wearing a red polo shirt, the man in the middle is wearing a dark shirt, and the woman on the right is wearing a white long-sleeved shirt. In the background, several sailboats are visible on the water under a blue sky with white clouds.

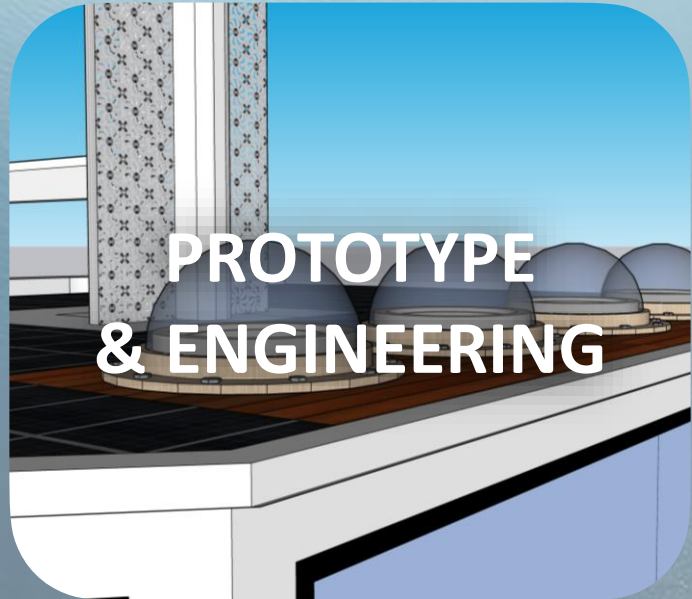

TECHNICAL EXPLORATION

ENERGY
AND RESSOURCE

The image shows the interior of a ship's compartment. On the left, a blue rectangular unit, likely a generator or battery bank, is mounted on a white panel. To its right is a white control panel with various switches and a small digital display. Black hoses and pipes are visible, running along the wall and ceiling. A white circular vent is located on the lower right.

RECYCLING
& AUTONOMY

The image is a 3D architectural rendering of a vertical farming system. It shows several stacked white trays filled with green seedlings. The system is housed within a structure with a curved wooden panel on the right side. A small, curved metal pipe or vent is visible at the top. The background is a light blue sky.

PROTOTYPE
& ENGINEERING

The image is a 3D architectural rendering of a prototype structure. It features a white base with a dark blue horizontal band. On top, there are several large, dark blue, dome-shaped structures. A vertical white pillar with a patterned texture is visible on the left. The background is a clear blue sky.

PEDAGOGICAL EXPLORATION

CONTENT
& RESSOURCES

The image shows a wooden bookshelf with several books. In the foreground, a framed educational poster titled "OCEAN BIODIVERSITY" is displayed. The poster features various colorful illustrations of marine life, including fish, a crab, a jellyfish, and a seahorse. The text "OCEAN BIODIVERSITY" is written in bold, blue capital letters at the top of the poster.

VISITS
WITH CHILDREN

The image shows a large group of children and adults in a museum setting. The children are standing in rows, many with their arms raised in excitement. The adults are standing in front of the children, some with their arms raised. The museum has a modern design with colorful walls and a large, open space.

WORLDWIDE
SHARING

The image shows a hand holding a small globe of the Earth. The globe is blue and green, with the continents clearly visible. The hand is holding the globe from the bottom, and the background is a blurred landscape with mountains and a body of water.
