Special Report

MANAGED RETREAT: PREPARING COASTAL CITIES FOR SEA LEVEL RISE

The Sea'ties Project: Focus on Managed Retreat and social justice

Illustration of a dynamic pathway to managed retreat

Case Study:

*In Saint-Louis, Senegal,
sustainable relocation
after the emergency*

The Langue de Barbarie: a long sand strip about thirty kilometers long, acting as a shield for part of the city of Saint-Louis.

In 2017, a devastating tidal wave forced the emergency displacement of 1,500 people into precarious conditions.

Saint-Louis (Senegal)
