

Connecting the world around ocean forecasting

Session 3: Interactive activity & Open discussion

Chair: Enrique Alvarez Fanjul – Technical Coordinator OceanPrediction DCC -
Mercator Ocean International

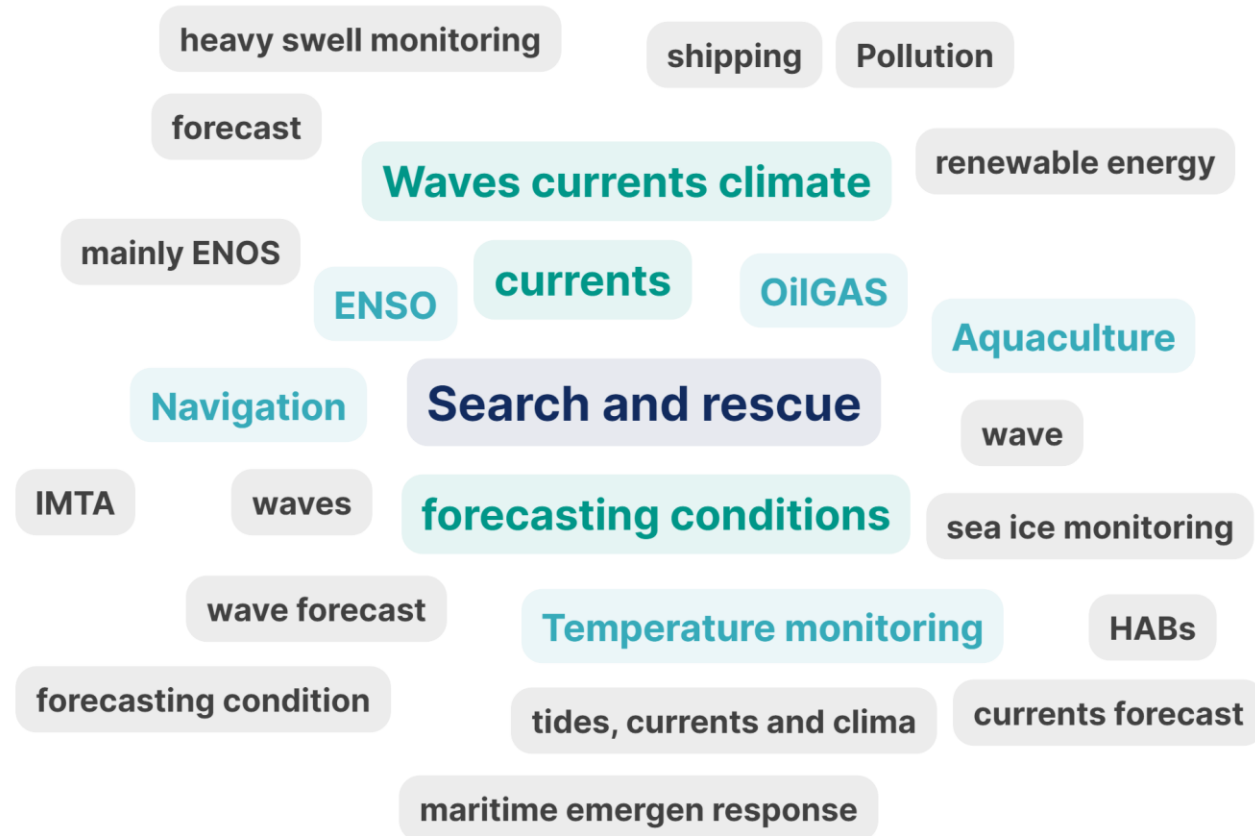

Which are the main applications that Ocean Forecasting is having today on the region?

Wordcloud Poll

74 responses

36 participants

Which are the main gaps for ocean forecasting today in the region?

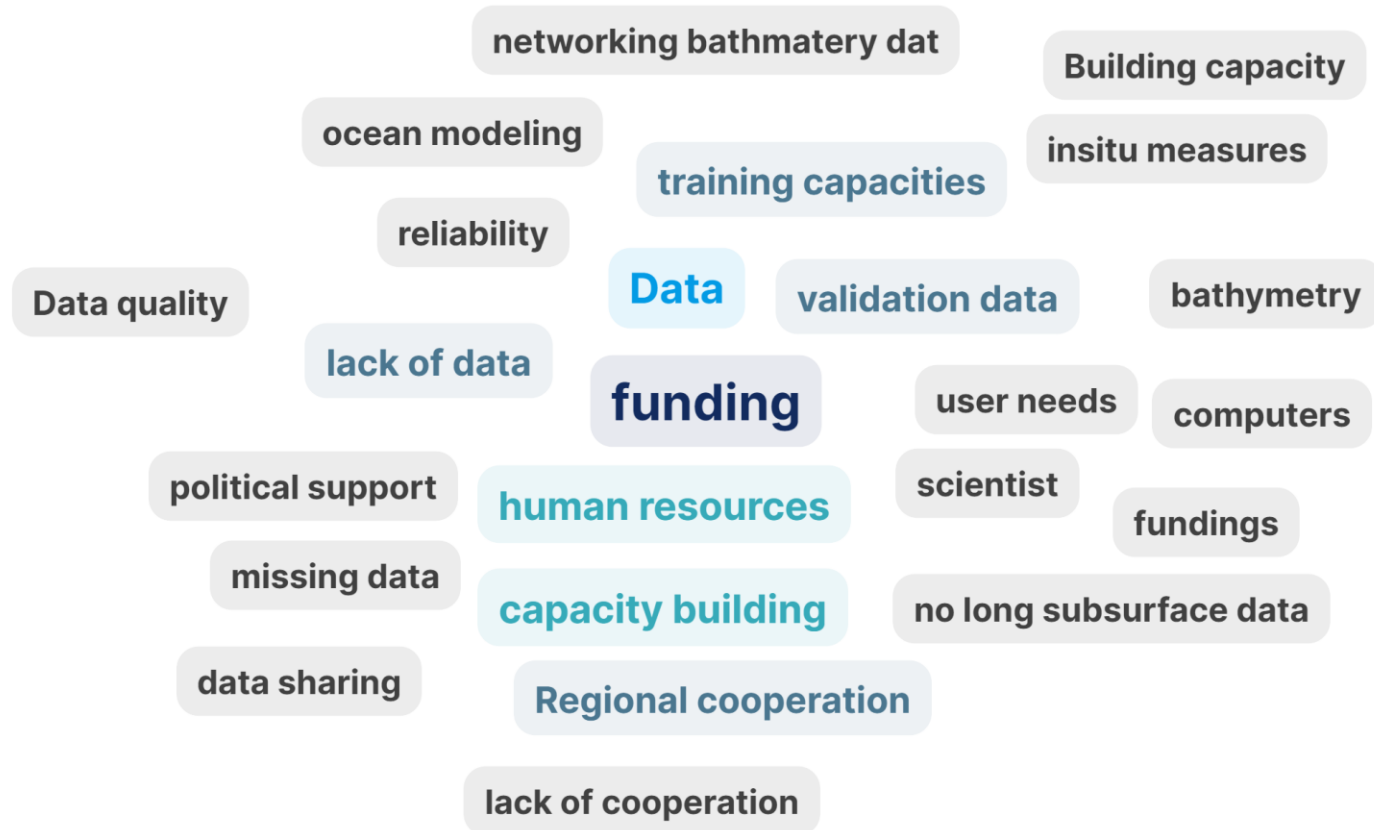

Wordcloud Poll

75 responses

30 participants

Which are the activities you think OceanPrediction DCC should focus to improve the situation of Ocean Forecasting in the region?

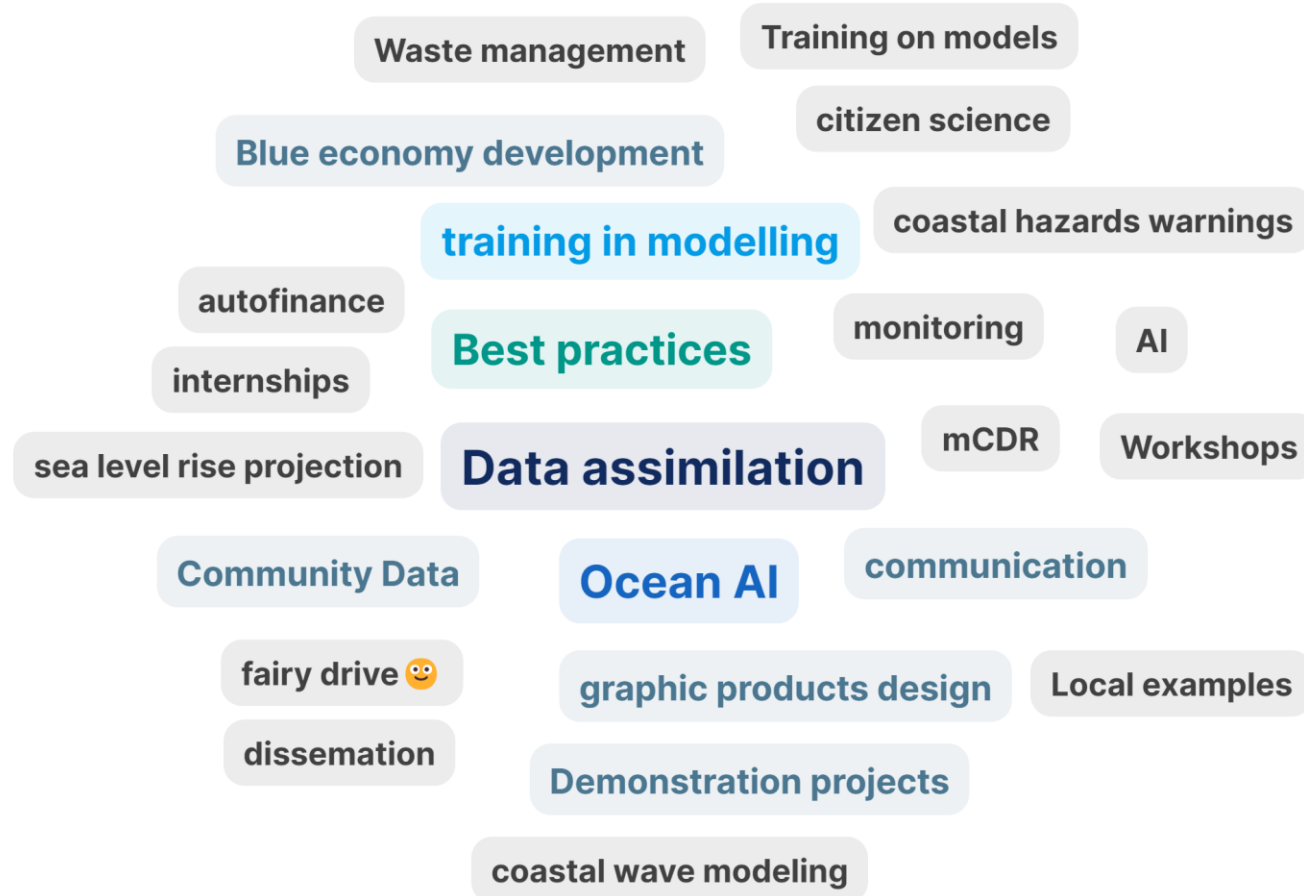

Wordcloud Poll 67 responses 31 participants

What kind of capacity development and ocean literacy activities do you believe are needed in the region?

Wordcloud Poll 77 responses 30 participants

Do you think observations from the region, if available, are sufficient to constrain the ocean models and produce accurate forecasts? If not, what kind of observations are we missing?

Wordcloud Poll 102 responses 27 participants
