

IEA's Regional Training on Energy Efficiency Policy Packages for Sub Saharan Africa

21-25 November, 2022

Guide for participants

International
Energy Agency

iea

Overview - IEA's Regional Training on Energy Efficiency Policy Packages for Sub Saharan Africa.

The International Energy Agency (IEA), jointly with the African Development Bank (AfDB), will host the first Regional Training on Energy Efficiency Policy Packages for Sub Saharan Africa in a virtual format from 21-25 November 2022 inclusive.

The IEA has held in-person energy [efficiency policy training weeks](#) in Paris and major emerging economies and regions since 2015. Building on the success of past IEA training weeks, the new training will provide an introduction to the basic principles for designing successful energy efficiency policy packages.

The virtual training will take place from Monday to Friday from 10:00 to 12:00 (CET) in English with simultaneous translation into French. After one day of general introduction to the principles of the energy efficiency policy package, each of the following training days will cover one of the following energy end uses:

- Appliances
- Buildings
- Industry
- Transport

Day 1 Launch	Day 2 Appliances	Day 3 Buildings
<p>This first day will include:</p> <ul style="list-style-type: none"> • A description of the role energy efficiency can play and its multiple benefits in these periods of crisis in Africa • A presentation of the policy package approach and role digitalisation can play to accelerate the adoption of effective policies. • Selected case studies illustrating how the policy tools work together. • Regional and international speakers will provide key insights. 	<p>The content and speakers in this module will answer the following questions:</p> <ul style="list-style-type: none"> • What is an ideal policy package for improving appliance energy efficiency based on three decades of experience? • What stakeholders need to be involved for an integrated approach to developing and implementing an energy efficient appliance policy package? • What are the lessons learnt from regional and international examples of existing policy packages for efficient low-carbon appliances. 	<p>The module will answer the following questions:</p> <ul style="list-style-type: none"> • What is an ideal policy package for improving energy efficiency in buildings? • How can a policy package approach support energy efficient and low-carbon buildings? • What stakeholders need to be involved in an integrated approach to developing and implementing a zero-carbon buildings policy package? • What are the lessons learnt from regional and international examples of existing policy packages for efficient low-carbon buildings?

Day 4 Industry	Day 5 Transport
<p>The module will answer the following questions:</p> <ul style="list-style-type: none"> • What is an ideal policy package for improving energy efficiency in industry? • How can a policy package approach ensure energy efficiency improvement in industry? • What stakeholders need to be involved in an integrated and successful approach to developing and implementing an effective industry policy package? • What are the lessons learnt from the regional and international examples of existing policy packages for efficient low-carbon industry? 	<p>The content and speakers in this module will be framed around the following questions:</p> <ul style="list-style-type: none"> • What are the key benefits of a policy package approach to improve vehicle efficiency? • What are best practices and lessons learnt from national, regional, and international experience in implementing packages and the underpinning policies? • What barriers exist to implementation of the policy package? • How could these be overcome in the short and longer term? • What key actions and next steps should participants be working towards?

Useful information for participants

Event Platform

IEA is using an Event Platform to deliver a tailored Regional Training Programme for you.

Please go to <https://www.iea-events.org/africa-energy-efficiency-training-week> to start your training journey.

Please don't use **Explorer browser** and if your company use **VPN make** sure is disabled.

We strongly recommend you:

- To connect to the platform using a reliable source of internet and a computer
- Use a headset for best audio quality
- keep your **camera on** at all time throughout the entire duration of the training

You should create an account by clicking on the Connect button on the upper right corner of the landing page (please make sure you are using the email where you are receiving all IEA's communication), name yourself and add a picture of you.

The platform will serve as your homepage for the event. It includes:

- PDF agenda (**sessions will synchronize to your local time**)
- Resources and presentations
- Presentation of the speakers and sector leads
- Networking

AFRICAN DEVELOPMENT BANK GROUP
GROUPE DE LA BANQUE AFRICAINE
DE DEVELOPPEMENT

It is essential that you activate your account on the event platform (again, make sure you are using the email account used in your registration). To do this, go to the event platform, and click on the arrow at the top right of your screen or the connect button. It may look like you are already logged in, as you are registered in the system and your email address may be visible. However, **you cannot access all of the materials until you have activated your account.**

Please enter your email address and follow instructions. A temporary code will be emailed to you. You will then enter the code and put in a new password. **This must be done before the training week, or you will not have access to all of the links and materials to follow during the week.**

Daily start time

All activities during the week will start at:

- 09:00 AM Ghana
- 10:00 AM Paris
- 11:00 AM South Africa
- 12:00 PM Kenya
- 01:00 PM Mauritius

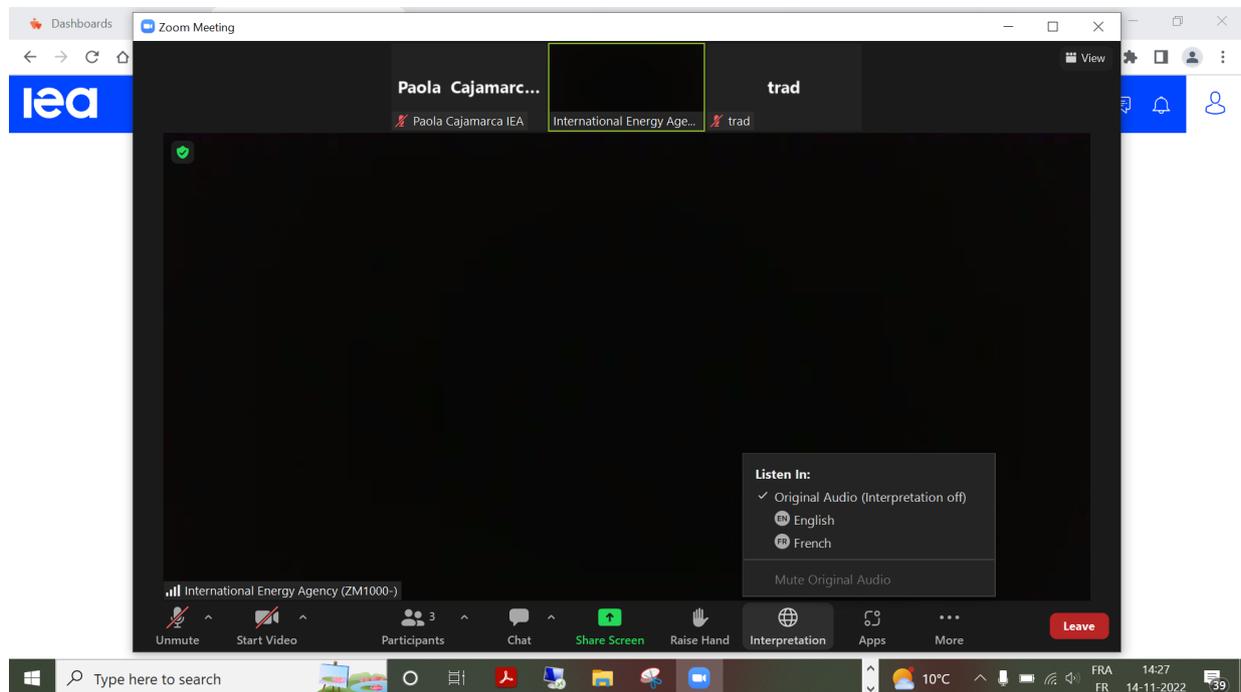

Menti Poll

To make our Training as interactive as possible, during all sessions we will be using Menti polls to ask you questions, please participate to all of them. You will find more information in how to vote at: <https://help.mentimeter.com/en/articles/410537-how-to-vote>

Interpretation

The training will take place in English with simultaneous translation into French.

To select your preferred language please click in interpretation at the bottom of the Zoom page and select your preferred language option.

Certificate of Completion

The week involves at least 10-hour time commitment. At the end of the week, participants who have joined **all sessions** will receive a Certificate of Completion. In order to qualify for the Certificate, it is essential that you:

- Join all sessions, including the pre-training Event Platform explanation event on November 18.

After the training, the Certificate will be sent electronically to your email account using the details that you used at your registration process.

In case of any issues or questions

If you encounter any particular technical issue or any other issue throughout the training, please do not hesitate to contact the IEA Training Team at Energy.Efficiency@iea.org. A member of the team will get back to you as quickly as possible.
