

****AQUA-AID Solutions Celebrates CE Registration for European Product Lineup****

Rocky Mount, NC - AQUA-AID Solutions is thrilled to announce the successful CE registration for its entire product lineup distributed in the European, Middle Eastern, and UK markets through our distribution partner, Aqua Aid Europe. With a legacy of 40 years in the industry, AQUA-AID Solutions has been at the forefront of delivering innovative solutions tailored to address turf and ornamental challenges by enhancing soil and plant health.

Our commitment to providing cutting-edge technologies that support agronomic programs while minimizing environmental impacts has been unwavering. The synergistic systems we offer not only deliver long-lasting agronomic value but also enhance aesthetics and playability.

"We are extremely proud to share that all our products distributed by Aqua Aid Europe are now CE registered. Aqua Aid, Aquifer, Hydra 30 Greens, PBS 150, OARS PS, OARS HS, and VerdeCal products will now proudly bear the CE mark on their labels," stated Sam Green, CEO of AQUA-AID Solutions. "Our dedicated team has collaborated closely with our EU partners to ensure compliance with current regulations and anticipated legislation set to come into effect in the future. It was imperative for us to proactively address future requirements to consistently offer market-leading technologies." Hans De Kort, Managing Director Aqua Aid Europe added, "This certification marks a major milestone in delivering AQUA-AID Solutions unique product lines to the European market, reinforcing our commitment to innovation, sustainability, and superior turf management."

With the CE registration now in place, turf managers across Europe can continue to rely on our product lineup to meet the highest standards of quality, safety, and environmental responsibility. AQUA-AID Solutions remains committed to delivering research backed, unique, best-in-class surfactant technologies that empower turfgrass managers to take control of moisture management effectively.
