

Gelber Muskateller 2025 from Maria & Michael Groß

Flein is a grape juice of the highest quality. Its grapes come from vineyards cultivated exclusively for our juices. In these “Flein gardens,” the vines are tended and harvested by hand, and the grapes are gently pressed - just as with Champagne - before the cold-filled juice is pasteurized in the gentlest manner. This allows Flein to shine with freshness, elegance and vibrant acidity.

Single-variety Grape Juice · 0% Alcohol · 100% Hand-picked
Organic · Naturally pure · Enjoy chilled in a big wine glass

MARIA & MICHAEL GROSS are the co-founders of Flein and have been the producers from the very beginning. The grapes for their single-varietal and sparkling juices are grown in carefully selected vineyards in Austria and Slovenia. With heart and an open awareness of the world around them, they believe that good things happen when you simply allow them - and this philosophy guides everything they do in harmony with nature.

GELBER MUSKATELLER · Gelber Muskateller is one of the oldest grape varieties of all. The grape is usually broad-shouldered, fleshy, round berries, and prefers warm vineyards. Aromatic and spicy with the unmistakable flavor of muscat.

FOOD PAIRING · Wonderful as an aperitif; pairs beautifully with salted snacks, asparagus, grilled scallops, and oysters. It also complements quiche, fresh cheese, wild garlic gratin, or sweet desserts.

JUICE DESCRIPTION · Fragrant and true to its variety, with an aromatic bouquet of elderflower, orange blossom, and nutmeg rising to the nose. On the palate, notes of grapefruit, candied lemon zest, and delicate floral tones unfold, carried by a firm, lively acidity that adds freshness. A spicy Muskateller with great drinkability.

ORIGIN OF THE GRAPES · Südsteiermark and Štajerska Slovenija – the border region that Maria and Michael Gross call home

CLIMATE · Alpine & Mediterranean

SEA LEVEL · 350 to 400 m, steep vineyards

SOIL STRUCTURE · sparse, limy marl

MORE · Serving temperature: 8–12 °C, At its best: 2025–2029, Vines aged 15–20 years, Vegan, low in histamine, Units: 0.74 L
