

General Information Tools

Clark Moody Dashboard, Coin Dance,
Blockchain.com, Bitinfocharts, Messari

Some Useful Information Sites

- **Clark Moody Bitcoin Dashboard:** Detailed bitcoin network information
- **Coin Dance:** Visualization / graphics
- **Blockchain.com:** Browser, prices, charts, DeFi, NFTs
- **Bitinfocharts:** charts, graphing, address transaction activity
- **Messari:** investment resource, links to project social media
- **Etherscan:** Tokens, charts, price history
- **DappRadar:** DeFi, DApps, Tokens

Clark Moody - Bitcoin Dashboard

- Extensive, live information on the state of the bitcoin blockchain.
- Price related data.
- Blockchain related data.
- Transaction fees.
- Technical data.

Coin Dance

<https://coin.dance/>

- Bitcoin information and visualizations
 - Volume: <https://coin.dance/volume>
 - Statistics: <https://coin.dance/stats>
 - Nodes: <https://coin.dance/nodes>
 - Politics and Opinion: <https://coin.dance/poli>
 - Blocks: <https://coin.dance/blocks>
 - Resources: <https://coin.dance/resources>
 - And a lot more...

Blockchain.com

<https://www.blockchain.com/>

- **Explorer:** General information page. Links to other information pages which provide more detailed information
- **Prices:** Current and historical prices for many cryptocurrencies.
- **Charts:** Provides basic info in a graphical format.
- **DeFi:** Lists the different DeFi (i.e. Smart Contract) platforms and links to more detailed information on DappRadar.com
- **NFTs:** Information on NFTs including links to their creators, owners, and collection.

Blockchain.com – Charts

<https://www.blockchain.com/charts>

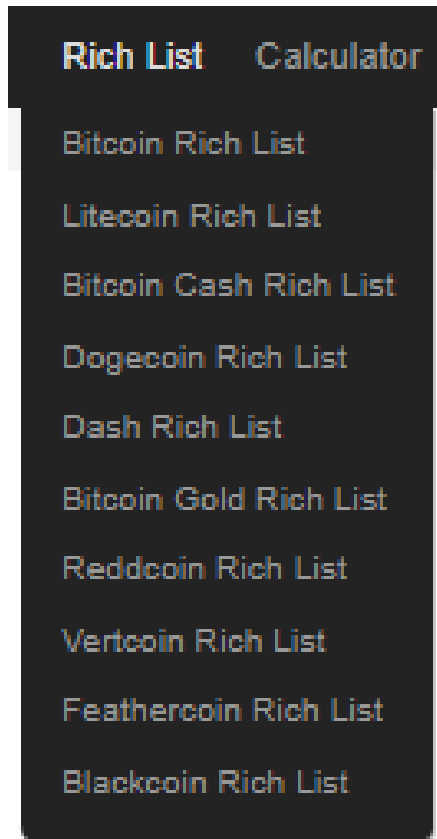

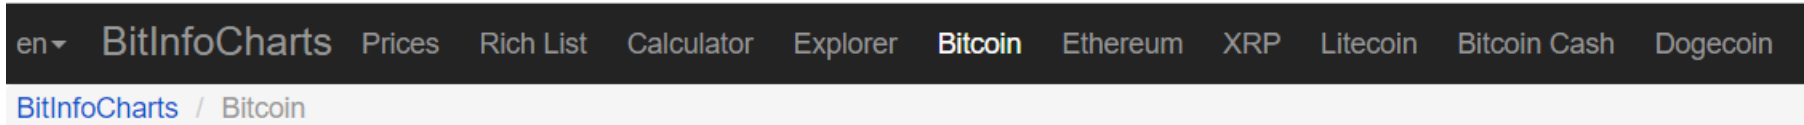

- Currency Prices
- Currency Statistics
- Block Details
- Mining Information
- Network Activity
- Wallet Activity
- Market Signals

Bitinfocharts

<https://bitinfocharts.com/>

- Gives prices and other information for a large number of coins.
- Useful for finding charts of general information:
 - Market capitalization
 - Average transaction value
 - Transaction stats
 - Number of active addresses
- **Investigations:** Useful for quickly graphing & viewing the transaction history of addresses.

Bitinfocharts Richest List

<https://bitinfocharts.com/>

Messari

<https://messari.io/>

- **Primarily used by investors.**
- Token, platform and trading statistics.
- Governance proposals and information.
- Some features require subscription fee to access.
- Attempts to eliminate wash trading from transaction statistics.
- Useful in getting the big picture.
- **May help you find communication platforms for tokens, code repository, etc.**

Etherscan

<https://etherscan.io/>

- Ethereum Blockchain Brower
- Allows you to search for accounts, tokens, transactions, and much more
- Displays Ethereum Charts and Statistics:
 - Price
 - Transactions
 - Total supply & Market Cap
 - Token transfers
 - Node tracker
 - Etc....

DappRadar

<https://dappradar.com/>

- Information about decentralized applications (**Dapp**), decentralised finance (**DeFi**) and **NFTs**.
- **Protocols:** Ethereum, TRON, EOX, etc.
- **Categories:** Games, Exchanges, Collectibles, etc.
