Good morning Ms. MacIssac,

I am looking to get the website for Future's Accounting updated with the following text boxes in addition to the other reworks. I really like the aesthetic that you have created for our brand so far. If you can update the services section of the website to include:

**Bookkeeping:** Accurate Financial Records for Business Success

Our comprehensive bookkeeping service ensures precise and organized financial records, giving you the foundation for informed decision-making and streamlined operations.

**Tax Filings:** Hassle-Free Compliance and Maximum Returns

Let our experienced team handle your tax filings with efficiency and precision, ensuring compliance while maximizing your eligible deductions for optimal financial outcomes.

**Tax Planning:** Strategize for Financial Advantage

Unlock opportunities for tax savings and minimize liabilities with our strategic tax planning service, tailored to your unique circumstances and long-term financial goals.

**Offshore Success:** Strategies to save you money

Leverage our expertise on how to optimize your tax savings through international tax policies and opportunities.

Thank you and have a great day,

-MH
