

**“I now understand that being a consumer goes beyond shopping at a store. From the moment I wake up and turn on the lights, to when I am playing online games – I’m always consuming. The ‘Vilnius is a School’ project gave me the chance to visit the consumer protection agency, where I learned a lot about my rights as a consumer. I have learned that it is important to think about where and how we buy, but also whether we truly need to. It is important to think about the impact on the planet and how to be a responsible consumer.”**

Lithuania’s ‘Vilnius is a School’ initiative offers unique lessons offered by institutions and companies that are best suited to meet students’ practical needs. The project implemented by the Vilnius municipality provides an opportunity for Vilnius students to learn about the rights and responsibilities of consumers when visiting the consumer rights agency every Friday.
