**France's international event
on offshore renewable energy**

www.seanergy-forum.com

Your
tailor-made
journey
in France
into the French
Offshore Renewable
Energy Industry

Explore the French offshore renewable energy industry

In anticipation of your upcoming visit to Seanergy, we would like to provide you with an overview of what you can expect to experience during your time into the French Offshore Renewable Energy Industry.

Throughout your visit, you will have the opportunity to engage in a series of tailored activities designed to facilitate networking, knowledge exchange, and collaboration.

Participate to the leading France's international offshore renewable energy forum to share your know-how and foster synergies to contribute to the Transition.

Meet with local authorities & international value chain players.

Share your vision by contributing to the programme, among these topics:

- New projects & alliances
- New ways to install and maintain projects while reducing fatigue
- Maritime transport going green
- New forms of offshore wind energy tenders to speed up development
- Ports infrastructure...

Enjoy a tailored guided tour of the exhibition to meet key industry professionals and potential buyers.

Benefit from a wide range of networking opportunities.

Strengthen your global presence in the offshore renewable energy industry

Discover industrial & academic sites/projects in France
