

Healthcare Week Luxembourg: How Artificial Intelligence (AI) transforms healthcare

Luxembourg, 20 March 2025. – The upcoming third edition of Healthcare Week Luxembourg (HWL) in 2025 will explore the opportunities and challenges posed by Artificial Intelligence (AI) within the healthcare sector and for healthcare professionals.

The two-day conference is set to take place on 7 and 8 October 2025 and will host presentations and panels featuring notable international speakers. It will serve as a platform for experts to engage in discussions, roundtables and debates regarding the future of healthcare, the influence of AI and practical strategies and solutions, and invites participants to explore over hundred exhibits from a wide array of specializations in the sector.

Healthcare Week Luxembourg targets professionals in healthcare, research, education and technological innovation as well as representatives from governments, ministries, professional and social institutions. The event organised by the Federation of Luxembourg Hospitals (FHL) in partnership with Quinze Mai (QM) is scheduled for 7 and 8 October 2025 at Luxexpo The Box. Registration is now open at www.hwl.lu where the detailed and regularly updated conference programme is available.

“We are thrilled to host Healthcare Week Luxembourg in 2025 again, building on the remarkable success of last year’s second edition which attracted 3,000 professionals from both the Greater Region and the international healthcare sector,” stated Dr. Philippe Turk, President of the FHL. “The third edition will concentrate on the influence of Artificial Intelligence within the healthcare sector and enable us to address the significant ethical, technological and practical challenges faced by healthcare professionals, whether in politics, research, academia, industry, startups or in practice. The healthcare landscape is undergoing significant transformation. HWL 2025 seeks to support a diverse range of professionals in understanding and leveraging the impact of AI in their work, with the goal of improving the lives of millions of patients, in hospitals, doctors’ practices and at home.”

HWL 2025 is set to conduct a webinar titled „AI & Healthcare – From theory to practice” on 3 April 2025 at 5pm CET. This session aims to familiarize an international audience with the conference theme, initiate the debate and collect feedback to enrich the conference agenda. The webinar will be opened with presentations of Dr. Philippe Turk, President of FHL, Dr. Giovanni Briganti, Endowed Chair of AI & Digital Medicine at the University of Mons in Belgium, as well as Dr. Alexandre Hébert, Director General for Medical Affairs of the Belgian healthcare organisation Vivalia. To register for the webinar please visit www.hwl.lu.

HWL 2025 will also bring back a highlight from its past editions: the presentation of the HWL Awards. The prizes will be handed out for innovative, ambitious, and promising projects that contribute to the improvement of the healthcare sector across three categories: managerial innovation, medical innovation and start-ups. Applications can be submitted online at www.hwl.lu/awards. A jury panel will select the finalists; the winners will be revealed and awarded during HWL 2025.

About Fédération des hôpitaux luxembourgeois (FHL)

Established in 1948 and officially recognised as an association in 1965, the Fédération des hôpitaux luxembourgeois (FHL) encompasses all hospitals in Luxembourg, employing approximately 9,000 people and hosting over 1,000 specialised doctors. It contributes to the continuous improvement of the national health system prioritising patient welfare and fostering collaboration and synergy among hospitals and other stakeholders to ensure patients are given the most appropriate care. As a representative body, the FHL defends the interests of its members and healthcare professionals at large while also promoting various forms of innovation and advancement within hospitals. It is also tasked with advising and informing policymakers on the vision and development of Luxembourg's hospitals and its health sector.

About Quinze Mai (QM)

Quinze Mai is the result of a merger of two event agencies: PG Organisation, which has been designing trade and consumer shows for over 40 years, and Eventime, a leading platform for the organisation of conferences and seminars. This fusion of expertise enables Quinze Mai to offer tailor-made events. As a partner of numerous skilled societies, associations, and federations, it has organised over 300 conferences, trade fairs and symposia, across more than 30 fields. Aware of the economic stakes and regulatory constraints of these events, Quinze Mai's teams possess the specific sector know-how, from fundraising and content to digital platforms for abstract submissions and participant management. Quinze Mai strives to innovate and respond to its partners' daily challenges.
