Be part of the industrial transformation

How to apply

Be part of the industrial transformation

Join the Basel Area Industrial Transformation initiative and be part of a dynamic ecosystem that drives the transition towards smart and sustainable manufacturing. With a collaborative platform and event, this initiative is designed to accelerate the development of startups, SMEs, and new ideas in the field of Industry 4.0 in Switzerland, France and Germany.

i4CHALLENGE

The i4Challenge provides a platform for participants to showcase their innovative solutions, new approaches, and next-generation products or services. By participating, you'll gain access to partners, mentors, collaborators, and potential customers, helping you promote your brand and drive growth in the thriving production technology and industrial ecosystem.
