

RAVEN

Digital Continuous Improvement Starts Here

Current software tools only account for **50% of downtime losses...**

... this is like accounting software that captures only **50% of expenses**

 Process data lacks meaningful context

 People can't label 1,000s of daily events

 Planning data is inaccurate

 **77% of organization don't trust their data**

Manufacturers waste $\frac{1}{3}$ of their capacity

Raven accounts for **100%** of production time and losses

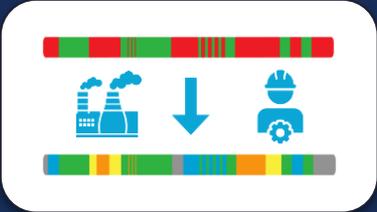

1

SMART ASSISTANTS

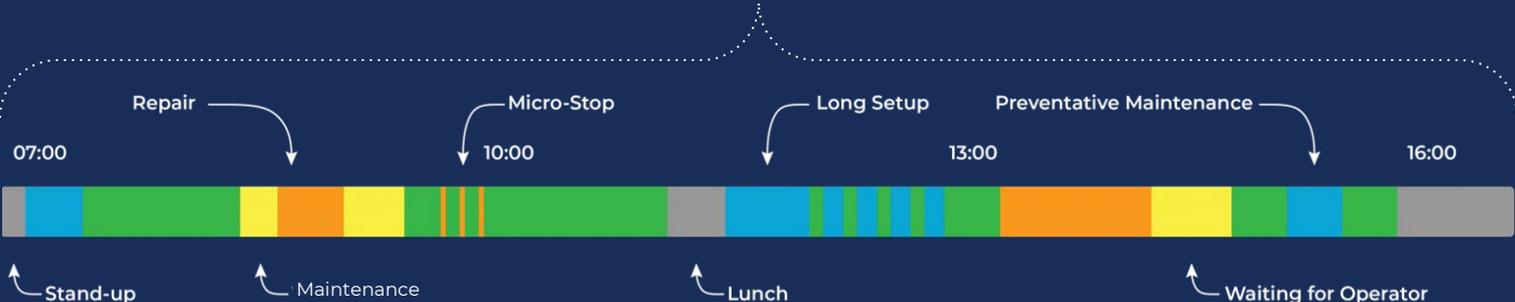

2

AUTOMATED
CONTEXTUALIZATION

3

INTEGRATIONS
APPS & APIs

Successful digitization **requires engagement** from front-line operators

Better
Awareness

Better
Engagement

Better
Context

Automated Contextualization

- AI-interpreters Automatically categorize up to 90% of time
- Significantly reduces Operator burden

Operator Smart Assistants improve awareness and engagement and simplify operators lives

- Clean UX improves awareness and engagement
- Automated Contextualization minimizes operator burden

Live Status & Alerts

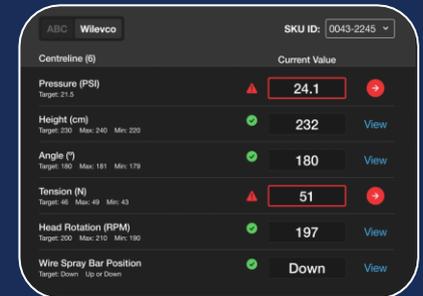

Downtime Context

Progress relative to plan

Process Feedback

OEE Improvement Apps uncover top opportunities for gain and offer immediate alerting and feedback

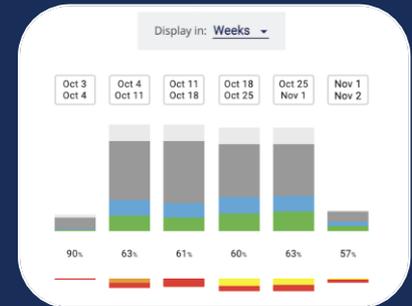

Meets the needs of Engineers,
Plant Management and
Improvement/Kaizen Teams

Root Cause/Pareto Analysis

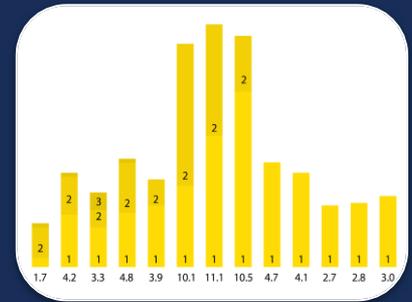

Live Performance Trends

Customized Reporting

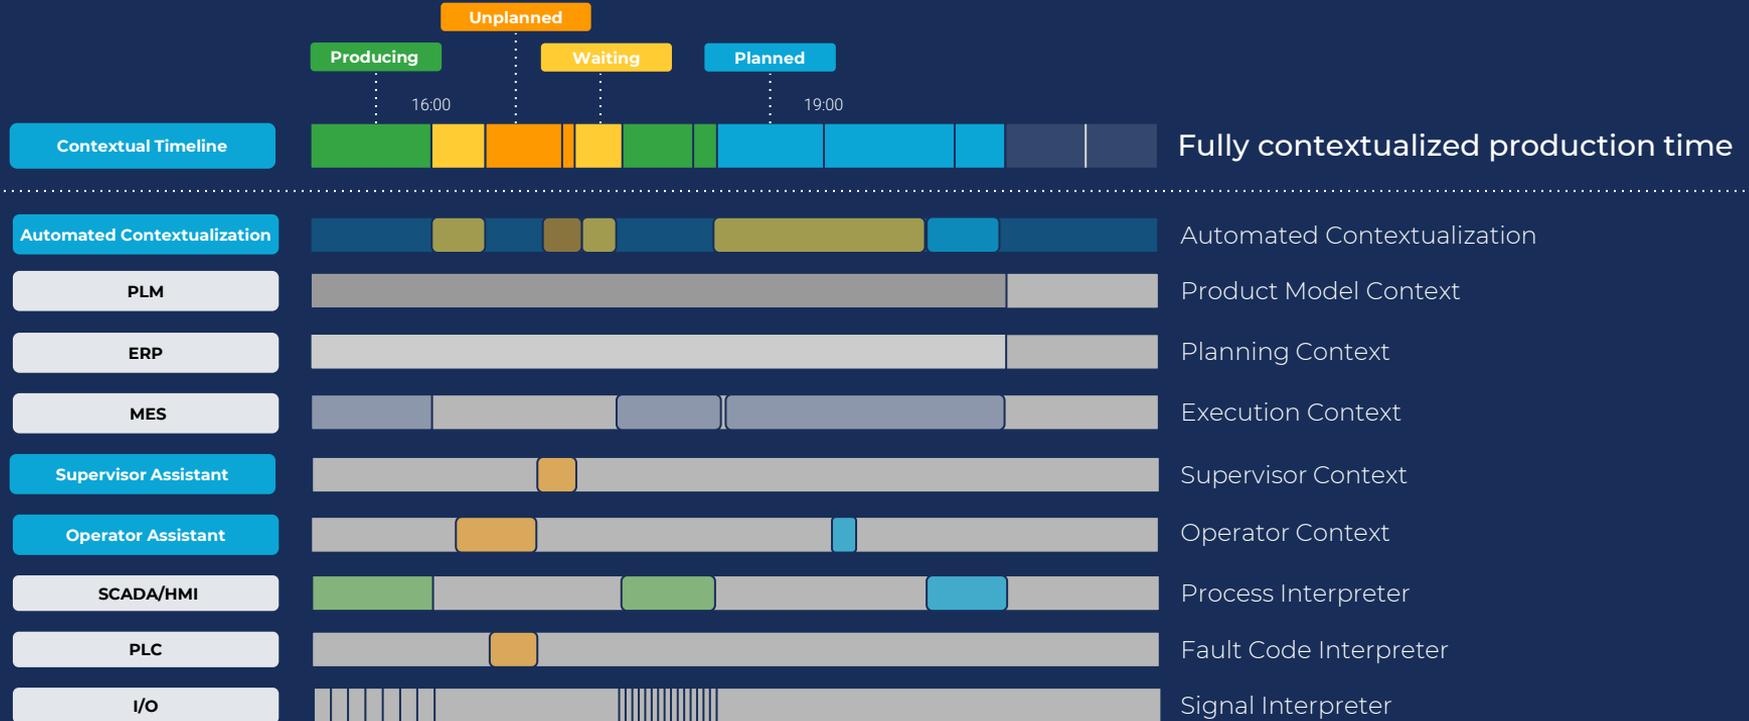

Statistical Analysis

Automated Contextualization

Raven accurately accounts for 100% of time

Data from multiple sources are combined to establish a complete, accurate and meaningful timeline.

Why RAVEN ?

1

Cost Effective & Quick to Deploy

Flexible pay-as-you-go pricing with no fixed term. Easily integrate with existing ERP, MES and SCADA and onboard with comprehensive training and support.

2

Flexible & Scalable

Seamlessly adapts to your operational needs and maturity, either as stand-alone OEE solution or integrated with existing IT/OT/IoT infrastructure.

3

Trusted Technology Partner

Our team of manufacturing experts combine lean manufacturing, data science, AI and cloud expertise to support you throughout your improvement journey
